

FREESTANDING HOSPICE DESIGN

Spaces Where Patients & Caregivers Thrive

WBRC's Hospice Design Team is here to help! Based in Lakewood Ranch, Florida, our hospice design specialists are focused on providing care teams, patients, families, and the communities they serve with meaningful design solutions.

Recent hospice projects have included the ability to care for higher acuity patients in a serene yet uplifting setting. We specialize in designing resilient, compliant facilities that are as versatile and home-like as possible while able to handle critical-care-level needs.

WBRC's freestanding hospice experience includes projects for:

Public / Recreational Area:	Proposed	Room Size (SF)	Total SF
Lobby	1	428	428
Public Notice Area / Vestibule	1	133	133
Family Room / Kitchenette	1	362	362
Wheelchair / Mobility Device Storage	1	20	20
Visitor Restroom	2	50	100
Family Dining Room	1	217	217
Kitchen & Dry Storage	1	476	476
Lounge Area	1	285	285
Reflection Room	1	327	327
Volunteer and Clergy Accommodations	1	45	45
			2393

Above: Early concept plans and room layout data, based on FGI guidelines, provided for a recent CON application.

WBRC provides planning and design support services from concept through construction administration.
